

MOUNTAIN SAFETY BOOT

grey-orange
Art. No. 603038

CE EN ISO 20345:2022+A1:2024 S7S HRO HI CI FO AN SC SR

Leather thickness 2.8 – 3.0 mm, breathable and waterproof with GORE-TEX Most Breathable Footwear, leg height 17 cm, sole 051

Available sizes: UK 5 – 13

603038

HAIX® Vario Wide Fit System

HAIX® Climate System

Upper Material

Suede leather, hydrophobized, breathable, 2.8 – 3.0 thick.

Inner Lining

GORE-TEX; waterproof and breathable. Abrasion-proof lining fabric with fleece inner layer. Optimized climate comfort for all seasons.

HAIX® Protective Sole

Flexible, metal-free, puncture-resistant sole insert.

HAIX® Protective cap

Anatomically designed, wide cushioned toe cap.

HAIX® Vario Wide Fit System

The width of the shoe can be individually adjusted by 3 different insoles. The shoe is supplied with a red insole (medium). A yellow insole (wide) and blue insole (narrow) can be ordered separately.

Foot bed

Comfortable, impact-absorbing and moisture-wicking. Separate heel cup ensures optimized cushioning and foot guidance.

Sole

Sturdy and abrasion-resistant, slip-resistant VIBRAM rubber/PU sole with rugged terrain tread. The lightweight PU cushioning guarantees excellent impact absorption and proper toe-to-heel movement. The non-marking outer sole is resistant to heat, fuel-oil. Conforming to EN ISO 20345:2022+A1:2024.

HAIX® Climate System

The HAIX® Climate system uses the pumping movement, which permits air circulation with every step – warm air is released and fresh air comes in through the vent holes at the top of the boot.

Other features

Anti-friction lacing elements, no side seams, sturdy sole edge, with rubber toe and heel protection for prolonged service life, surrounding rubber edge strip for stabilisation - protection against stones, spikes, tightening loop, etc.
